## COMPANY EXPERIENCE

---

### COMPLETED PROJECTS

#### **Renewable Energy - Wind Farm Bird and Bat Monitoring**

Client – EDF Renewable Energy

Jan 2022 - Jan 2023

#### **Pre-construction Surveys:**

Conduct thorough bird surveys before constructing a wind farm to identify bird species present and their habitats.

#### **Radar and Visual Surveys:**

Utilize radar systems to monitor bird movements in the vicinity of wind farms.

Combine visual surveys to identify species and assess flight patterns.

#### **Collision Risk Models:**

Develop models to estimate the collision risk between birds and wind turbine blades based on species behavior and turbine characteristics.

#### **Avian & Bat Mortality Surveys:**

Regularly monitor the area around turbines for bird carcasses.

Employ trained personnel to conduct searches, especially during migration seasons.

#### **Technological Solutions:**

Implement advanced technologies such as thermal imaging or lidar to detect and monitor bird movements around turbines.

#### **Post-construction Monitoring:**

Continue monitoring bird populations after wind farm construction to assess the long-term impact

**Reference Letter – Cloudy Sky Designs Pty Ltd**

This is a reference letter for Njabulo Ntombela, 9206276222084, a representative/director of Cloudy Sky [2015/202348/07], a trusted and professional company that has consistently demonstrated its excellence in providing top-quality services.

Njabulo is currently contracted to offer consultive services as environmental expert with our construction projects. Their dedication to safety, efficiency, and environmentally responsible practices has made them a preferred choice.

One of the key strengths is their commitment to environmental responsibility. Their practices align with our National Environmental Management Acts and sustainability goals, making them a reliable partner in our construction management projects.

They are currently contracted for following projects:

- Construction of the East Bank Electrical Main Substation at the Port of Ngqura  
Project value – R179 million
- Construction of the Design, Supply and Construction of Jockey and Booster Pumps and Associated Mechanical, Electrical and Civil Works for the CFI Project in Island View Complex at the Port of Durban  
Project value – R33 million

We highly recommend them for any projects with environmental management requirements. We have complete confidence in their abilities and professionalism, and we are grateful for the excellent service they have provided.

If you require any further information or have specific questions about our experiences with them, please do not hesitate to contact me

Sincerely,  
Rodrick Mantsho  
Project Manager
